MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name

South Texas Health System

Respondent Name

New Hampshire Insurance Co

MFDR Tracking Number

M4-15-4012-01

Carrier's Austin Representative

Box Number 19

MFDR Date Received

August 11, 2015

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The correct allowable due is \$4,015.00, minus their payment of \$1,942.94 there is still an outstanding balance of \$2,072.04."

Amount in Dispute: \$2,072.04

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Upon receipt of the MDR, the bill was sent for reconsideration. It was determined that no additional payment is owed to the provider."

Response Submitted by: ESIS, P.O. Box 6563, Scranton, PA 18505-6563

SUMMARY OF FINDINGS

Dates of Service	Disputed Services	Amount In Dispute	Amount Due
February 13, 2015	Outpatient Hospital Services	\$2,072.04	\$1,971.61

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403 sets out the acute care hospital fee guideline for outpatient services.
3. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - P12 – Workers compensation jurisdictional fee schedule adjustment
 - 24 – Reimbursement based on Multiple Imaging Composite APC 8006
 - 25 – Additional recommendation is based upon additional supporting documentation received
 - 4 – Charge exceeds Fee Schedule allowance

- 45 – Charge exceeds fee schedule/maximum allowable or contracted/legislated fee arrangement
- 97 – This benefit for this service is included in the payment/allowance service/procedure that has already been adjudicated

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to additional reimbursement?

Findings

1. This dispute relates to outpatient hospital facility services with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 36415, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 80053, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code G0434, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code G6040, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 85025, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 81001, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code 70450, date of service February 13, 2015, has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable

services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.

- Procedure code 71260, date of service February 13, 2015, has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.
- Procedure code 72125, date of service February 13, 2015, has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.
- Procedure code 74177, date of service February 13, 2015, has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC 8006. This service meets the criteria for composite payment. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. The payment for composite services is calculated below.
- Procedure code 12002, date of service February 13, 2015, has a status indicator of Q1, which denotes STVX-packaged codes; payment for these services is packaged into the payment for any other procedures with status indicators S, T, V, or X that are billed for the same date of service. This code may be separately payable only if no other such procedures are billed for the same date. Review of the submitted information finds that OPPS criteria for separate payment have not been met. Payment for this service is included in the payment for procedure code 99284 billed on the same claim. The use of a modifier is not appropriate. Separate payment is not recommended.
- Procedure code 96374, date of service February 13, 2015, has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0438, which, per OPPS Addendum A, has a payment rate of \$108.24. This amount multiplied by 60% yields an unadjusted labor-related amount of \$64.94. This amount multiplied by the annual wage index for this facility of 0.8197 yields an adjusted labor-related amount of \$53.23. The non-labor related portion is 40% of the APC rate or \$43.30. The sum of the labor and non-labor related amounts is \$96.53. The cost of these services does not exceed the

annual fixed-dollar threshold of \$2,775. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$96.53. This amount multiplied by 200% yields a MAR of \$193.06.

- Procedure code 96375, date of service February 13, 2015, has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0436, which, per OPPS Addendum A, has a payment rate of \$32.58. This amount multiplied by 60% yields an unadjusted labor-related amount of \$19.55. This amount multiplied by the annual wage index for this facility of 0.8197 yields an adjusted labor-related amount of \$16.03. The non-labor related portion is 40% of the APC rate or \$13.03. The sum of the labor and non-labor related amounts is \$29.06. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,775. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$29.06. This amount multiplied by 200% yields a MAR of \$58.12.
- Procedure code 99284, date of service February 13, 2015, has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC; however, review of the submitted information finds that the criteria for composite payment have not been met. Therefore, this line may be paid separately. This line is assigned status indicator V, which denotes a clinic or emergency department visit paid under OPPS with separate APC payment. These services are classified under APC 0615, which, per OPPS Addendum A, has a payment rate of \$333.80. This amount multiplied by 60% yields an unadjusted labor-related amount of \$200.28. This amount multiplied by the annual wage index for this facility of 0.8197 yields an adjusted labor-related amount of \$164.17. The non-labor related portion is 40% of the APC rate or \$133.52. The sum of the labor and non-labor related amounts is \$297.69. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,775. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$297.69. This amount multiplied by 200% yields a MAR of \$595.38.
- Procedure code J1885, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J2270, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code J2405, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code Q9967, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code 90714, date of service February 13, 2015, has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
- Procedure code 93005, date of service February 13, 2015, has a status indicator of Q1, which denotes STVX-packaged codes; payment for these services is packaged into the payment for any other procedures with status indicators S, T, V, or X that are billed for the same date of service. This code may be separately payable only if no other such procedures are billed for the same date. Review of the submitted information finds that OPPS criteria for separate payment have not been met. Payment for this service is included in the payment for procedure code 99284 billed on the same claim. The use of a modifier is not appropriate. Separate payment is not recommended.
- Procedure code 90471, date of service February 13, 2015, has a status indicator of S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0437, which, per OPPS Addendum A, has a payment rate of \$53.54. This amount multiplied by 60% yields an unadjusted labor-related amount of \$32.12. This amount multiplied by the annual wage index for this facility of 0.8197 yields an adjusted labor-

related amount of \$26.33. The non-labor related portion is 40% of the APC rate or \$21.42. The sum of the labor and non-labor related amounts is \$47.75. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,775. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$47.75. This amount multiplied by 200% yields a MAR of \$95.50.

- Procedure codes 70450, 71260, 72125, and 74177, dates of service February 13, 2015, have a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. A service that is assigned to a composite APC is a major component of a single episode of care. The hospital receives one payment through a composite APC for multiple major separately identifiable services. Payment for any combination of designated procedures performed on the same date is packaged into a single payment. These services are assigned to composite APC 8006, for computed tomography (CT) services including contrast. If a "without contrast" CT procedure is performed on the same date of service as a "with contrast" CT, APC 8006 is assigned rather than APC 8005. If a claim includes a composite payment that pays for more than one otherwise separately paid service, the charges for all services included in the composite are summed up to one line. To determine outlier payments, a single cost for the composite APC is estimated from the summarized charges. Total packaged cost is allocated to the composite line-item in proportion to other separately paid services on the claim. This line is assigned status indicator S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 8006, which, per OPPS Addendum A, has a payment rate of \$528.56. This amount multiplied by 60% yields an unadjusted labor-related amount of \$317.14. This amount multiplied by the annual wage index for this facility of 0.8197 yields an adjusted labor-related amount of \$259.96. The non-labor related portion is 40% of the APC rate or \$211.42. The sum of the labor and non-labor related amounts is \$471.38. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual fixed-dollar threshold of \$2,775, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. Per the OPPS Facility-Specific Impacts file, CMS lists the cost-to-charge ratio for this provider as 0.081. This ratio multiplied by the billed charge of \$29,620.00 yields a cost of \$2,399.22. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services based on the percentage of the total APC payment. The APC payment for these services of \$471.38 divided by the sum of all APC payments is 50.02%. The sum of all packaged costs is \$910.53. The allocated portion of packaged costs is \$455.43. This amount added to the service cost yields a total cost of \$2,854.65. The cost of these services exceeds the annual fixed-dollar threshold of \$2,775. The amount by which the cost exceeds 1.75 times the OPPS payment is \$2,029.73. 50% of this amount is \$1,014.87. The total Medicare facility specific reimbursement amount for this line, including outlier payment, is \$1,486.25. This amount multiplied by 200% yields a MAR of \$2,972.49.
3. The total allowable reimbursement for the services in dispute is \$3,914.55. This amount less the amount previously paid by the insurance carrier of \$1,942.94 leaves an amount due to the requestor of \$1,971.61. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$1,971.61.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$1,971.61 plus applicable accrued interest per 28 Texas Administrative Code §134.130 due within 30 days of receipt of this Order.

YOUR RIGHT TO APPEAL

Either party to this medical fee dispute has a right to seek review of this decision in accordance with 28 Texas Administrative Code §133.307, effective May 31, 2012, *37 Texas Register 3833*, **applicable to disputes filed on or after June 1, 2012.**

A party seeking review must submit a **Request to Schedule a Benefit Review Conference to Appeal a Medical Fee Dispute Decision** (form **DWC045M**) in accordance with the instructions on the form. The request must be received by the Division within **twenty** days of your receipt of this decision. The request may be faxed, mailed or personally delivered to the Division using the contact information listed on the form or to the field office handling the claim.

The party seeking review of the MFDR decision shall deliver a copy of the request to all other parties involved in the dispute at the same time the request is filed with the Division. **Please include a copy of the *Medical Fee Dispute Resolution Findings and Decision*** together with any other required information specified in 28 Texas Administrative Code §141.1(d).
